"Entry-Level Cyber Security Enthusiast with foundational skills in Network Security, SOC Monitoring (L1), and VAPT. Certified in CEH v12 and Certified in penetration Testing (CPT) with hands-on experience in Wireshark, SIEM tools, and vulnerability scanning. Eager to apply technical knowledge in threat detection, incident response, and penetration testing to secure organizational assets."

Experience

- **Trainee MERN stack Developer at CAMERINFOLKS PVT LTD**

  - Core: Worked in the Frontend Development.

  - Skills: **REACT JS, HTML, CSS, BOOTSTRAP, JAVASCRIPT**

    (4 MONTHS)
    April– October 2023

- **CYBERSECURITY ANALYST at SCIPY TECHNOLOGIES**

  - Spearheaded network defense strategies, threat intelligence analysis, and vulnerability management to safeguard organizational infrastructure and data.
  - Monitored security systems, analyzed potential threats, and led incident response efforts to mitigate risks.
  - Implemented proactive security measures, reducing vulnerabilities and enhancing system resilience.
  - Recognized for critical thinking, problem-solving, and dedication to continuous learning in evolving cybersecurity landscapes.

    Jan – December 2024

Certifications

Certified Ethical Hacker -V12 (EC-Council)
  - Covered: SIEM basics, IDS/IPS evasion, CVSS scoring

Certified penetration Tester (CPT)-Red Team Hacker Academy
  - Applied MITRE ATT&CK framework in pentesting labs

Certified By EC-COUNCIL
  - Introduction to Cybersecurity Cybersecurity Essentials
  - SQL injection Attacks
  - Ethical Hacking Essentials (EHE)
  - A Practical Introduction to Cloud Computing

Education

Dhanalakshmi srinivasan college of Engineering, Coimbatore

2018 - 22

- Computer science
- Engineering CGPA: 7.36

GVHSS Cherpulassery, palakkad

2016 - 18

- +2 Computer Science
- Percentage: 67%

Anaganadi High school(SSLC), palakkad

2015 - 16

Percentage: 86%

Technical Skills

Network Security: Wireshark, Nmap, TCP/IP, firewall basics, Nessus.

SOC L1: SIEM basics , log analysis, IDS/IPS.

VAPT: Burp Suite, Metasploit, OWASP Top 10, SQLmap.

Scripting: Python basics

Projects

1. Home SOC Lab:

   - Set up a SIEM (e.g., wazuh Free) to monitor VM logs.
   - Created custom alerts for brute-force attacks.

2. Network Vulnerability Scan:

   - Used Nessus to scan a test network and generated a risk report.

3. OWASP Web App Pentest:

   - Conducted security assessments on vulnerable web apps (DVWA, OWASP).
   - Identified & exploited vulnerabilities (SQLi, XSS).

Self Learning

- Active TRYHACKME player (Ranked Top 6% in TRYHACKME)

Personal Details

Date of Birth : 21 March 2000

Home address : 7400 Sulaiman Bin Mahran St - Al Amal District, Riyadh RCSB7400, Saudi Arabia.

Languages Known : Malayalam, English, Tamil, Hindi
